

Critters 'n Clay™

After School Enrichment Program
Parkmead Elementary School

Enrich your child's world with a delightful hour integrating science, sculpting and children's literature! We will learn interesting facts about a different animal each week, sculpt it out of clay, and wrap things up with a story about the "critter of the week." Basic sculpting and glazing techniques will be taught to assist in 3 creations, which are sure to become family heirlooms. A new group of animals will be studied each session, so the class is fresh and exciting for continuing students.
